Engineering Career Fair
SPONSORED BY THE COLLEGE OF ENGINEERING

McKIMMON CENTER
SEPTEMBER 30 AND OCTOBER 1
9:30 AM – 4 PM

students.engr.ncsu.edu/careerfair
WELCOME TO THE FALL 2014 Engineering Career Fair at North Carolina State University. The College of Engineering is honored that so many outstanding employers are recruiting at this event. The breadth and depth of our programs and the more than 9,600 top students enrolled in engineering and computer science means NC State offers an excellent venue for employers in a variety of fields to connect with outstanding job candidates.

Our Engineering Career Fair began in 1998 and has become one of the largest career fairs of its kind in the nation. And since it is an open event, we have students from other colleges and universities traveling from across the country to attend. We are proud to host an event that plays such a pivotal role boosting the state and national economy.

Industry recognition of the quality of our programs was reflected in 2010 when the College of Engineering was ranked 15th among the nation’s engineering schools by recruiters in a study published in the Wall Street Journal. This ranking reflects the high quality of graduates from our engineering and computer science programs and underscores why our career fair keeps attracting so many top employers.

The students and staff who run the career fair have worked hard to make sure this event exceeds your expectations. I hope you enjoy your experience at NC State University.

Louis A. Martin-Vega, Ph.D., P.E.
Dean, College of Engineering
North Carolina State University
STUDENTS
- More than 9,600 students
- 18 bachelor’s, 21 master’s, 13 doctoral degree programs
- 72 percent of incoming freshmen in the top 10 percent of their high school graduating class

FACULTY AND STAFF
- 14 members of the National Academy of Engineering
- 2 National Medals of Technology and Innovation
- 2 Directors of NSF Engineering Research Centers
- Lead Scientist for Department of Energy CASL
- 1 Emmy Award for plasma display technology
- 1 US Army Commander’s Award for life-saving military technology
- 1 Inventors Hall of Fame member
- 1 Electronic Design Hall of Fame member
- 3 Presidential Early Career Awards for Scientists and Engineers
- 4 Presidential Awards for Excellence in Science, Mathematics and Engineering Mentoring
- 61 NSF Career Awards since 2000
- 1 Institute of Electrical and Electronics Engineers Medal of Honor winner

ACADEMIC DEPARTMENTS
- Biomedical Engineering
- Chemical and Biomolecular Engineering
- Civil, Construction, and Environmental Engineering
- Computer Science
- Electrical and Computer Engineering
- Industrial and Systems Engineering
- Materials Science and Engineering
- Mechanical and Aerospace Engineering
- Nuclear Engineering

ENGINEERING PROGRAMS IN OTHER COLLEGES
- Biological and Agricultural Engineering
- Forest Biomaterials
- Textile Engineering

RESEARCH
- $160 million in research expenditures in 2012-13
- More than 2,800 graduate students
- Lead institution for two NSF Engineering Research Centers
- More than 20 centers, institutes and labs

RANKINGS
- 15th in recruiter rankings featured in the Wall Street Journal
- 17th among public engineering schools whose highest degree is a doctorate in US News & World Report undergraduate rankings
- 16th among public engineering schools in US News & World Report graduate rankings
- 9th among online graduate engineering programs by US News & World Report
- 1st among online graduate engineering programs for veterans and active duty military personnel by US News & World Report
- 16th among US public engineering schools in the Academic Ranking of World Universities—Engineering Rankings
- 2nd among non-HBCUs in BS degrees awarded to African Americans*
- 7th in BS degrees awarded**
- 7th in MS degrees awarded**
- 12th in PhD degrees awarded**
- 7th in total number of degrees awarded**

ALUMNI
- 53,143 total living alumni
- 54 percent live in North Carolina
- Top 5 alumni metro areas outside NC: Washington, DC; Atlanta, Ga.; Bay Area, Calif.; Greenville/Spartanburg, SC; Norfolk, Va.

CENTENNIAL CAMPUS
- More than two-thirds of the College has moved to the state-of-the-art campus
- Engineering Buildings I, II and III are completed and occupied

*American Society for Engineering Education Profiles 2013
**Engineering Workforce Commission of the American Association of Engineering Societies, Inc. 2013

3 Phoenix, Inc.

3 Phoenix, Inc. (3Pi) is a small business focused on providing technology products and services to the Department of Defense and Industry. The company is formed around a core of experienced personnel with a demonstrated track record of developing innovative technical solutions and successfully transitioning these technologies into DoD Programs of Record. 3Pi has established a reputation for driving innovation and implementing complex system solutions on leading edge commercial hardware.

3Pi is focused on developing innovative technologies, primarily through Small Business Innovative Research (SBIR) and Small Business Technology Transfer (STTR) opportunities, with the goal of transitioning products to our DoD and Commercial customers.

[http://www.3phoenix.com/](http://www.3phoenix.com/)

ABB, Inc.

ABB is a technology-based provider of power and automation products, systems, solutions, and services. Building on our core strengths of technology leadership, pioneering spirit and a sustainable approach to business, ABB helps our customers to become more profitable while lowering environmental impact.

ABB operations in North America, headquartered in Cary, North Carolina, employs 11,250 people in manufacturing and other facilities.

Worldwide, the ABB Group, headquartered in Zurich, employs about 103,000 people in approximately 100 countries.

Advanced Energy

Since 1980, Advanced Energy has been developing innovative programs, conducting cutting-edge research and analyzing real-world effectiveness for energy issues in order to deliver tangible results and sustainable solutions for the energy using public.

[http://www.advancedenergy.org](http://www.advancedenergy.org)
Advanced Self-Powered Systems of Integrated Sensors and Technologies (ASSIST)
The NSF Nanosystems Engineering Research Center (NERC) for Advanced Self-Powered Systems of Integrated Sensors and Technologies (ASSIST) develops and employs nano-enabled energy harvesting, energy storage, nanodevices, and sensors to create innovative battery-free, body-powered, and wearable health monitoring systems. This center of excellence received funding from the National Science Foundation (NSF) in 2012 for five years of research, and this funding will be renewable for another five years in 2017. Our mission is to use nanotechnology to improve global health by enabling a correlation between personal health and personal environment, and by empowering patients and doctors to manage wellness and improve quality of life.

American Buildings Company

American Buildings, a NUCOR company, is one of the largest and most experienced manufacturers of custom engineered steel building systems in the world. We lead the industry through technology, design flexibility and quality. Our teammates are highly motivated, forward-thinking individuals who are passionate about taking care of our customers.

http://www.americanbuildings.com

Amazon

As one of the world’s leading online retailers, the challenges we face are monumental. And it’s the daily innovations of people like you that help us to build the solutions that bring our customers the products and services they’re looking for. At Amazon you’ll solve problems on a broad scale and build innovative solutions that touch tens of millions of customers worldwide. Here you’ll find a team high on intelligence and low on attitude—and just as committed as you are to delivering a world-class customer experience.

http://www.amazon.com/careers
American Tower Corporation

American Tower (NYSE: AMT) is a leading independent owner and operator of wireless and broadcast communication sites. Our global portfolio includes 28,000 sites and is experiencing steady growth. In addition to leasing space on towers, we provide customized collocation solutions through our Distributed Antenna Systems (DAS) that support seamless in-building and outdoor wireless coverage. Headquartered in Boston, Massachusetts, American Tower has local offices across the United States and in Mexico, Brazil, India and the United Kingdom.

http://www.americantower.com

American Woodmark Corporation

American Woodmark Corporation manufactures kitchen and bath cabinetry under four major brands: American Woodmark™, Shenandoah Cabinetry®, Waypoint Living Spaces™, and Timberlake Cabinetry®, selling more than 400 cabinet lines in a wide variety of design materials and finishes. Its products are sold through a network of independent dealers and distributors, and directly to major builders and Lowe’s and The Home Depot. The company operates 9 manufacturing facilities located in Arizona, Georgia, Indiana, Kentucky, Maryland, Tennessee, Virginia, and West Virginia, and 9 builder service centers across the country.

We will be hiring graduates to participate in the Career Orientation & Development Program, a management training program.

http://www.americanwoodmark.com

Analog Devices

Analog Devices, Inc. (NYSE: ADI) defines innovation and excellence in signal processing. ADI’s analog, mixed-signal, and digital signal processing (DSP) integrated circuits (IC) play a fundamental role in converting, conditioning, and processing real-world phenomena such as light, sound, temperature, motion, and pressure into electrical signals to be used in a wide array of electronic equipment. But that doesn’t begin to capture the essence of what Analog Devices does for our customers, and ultimately for the end user.

Anheuser-Busch, Inc.

Based in St. Louis, Anheuser-Busch is the leading American brewer, holding a 48.5 percent share of U.S. beer sales. The company brews the world’s largest-selling beers, Budweiser and Bud Light. Anheuser-Busch also owns a 50 percent share in Grupo Modelo, Mexico’s leading brewer. Anheuser-Busch ranked No. 1 among beverage companies in FORTUNE Magazine’s Most Admired U.S. and Global Companies lists in 2008. Anheuser-Busch is a major manufacturer of aluminum cans and one of the world’s largest recyclers of aluminum cans. The company is a wholly-owned subsidiary of Anheuser-Busch InBev, the leading global brewer, and continues to operate under the Anheuser-Busch name and logo. As the leading global brewer, AB InBev is committed to finding innovative ways to continually improve.

www.anheuser-busch.com
Aon

Aon plc is the leading global provider of risk management services, insurance and reinsurance brokerage, and human resource consulting and outsourcing. Through its more than 66,000 colleagues worldwide, Aon delivers distinctive client value via innovative and effective risk management and workforce productivity solutions.

http://www.aon.com

Apple, Inc.

Apple designs Macs, the best personal computers in the world, along with OS X, iLife, iWork and professional software. Apple leads the digital music revolution with its iPods and iTunes online store. Apple has reinvented the mobile phone with its revolutionary iPhone and App Store, and is defining the future of mobile media and computing devices with iPad.

Applied Research Associates, Inc. is an employee-owned international research and engineering company recognized for providing technically superior solutions to complex and challenging problems in the physical sciences. ARA offices throughout the United States and Canada provide a broad range of technical expertise in defense technologies, civil technologies, computer software and simulation, systems analysis, environmental technologies, and testing and measurement. The corporation also provides sophisticated technical products for environmental site characterization, pavement analysis, and robotics. The Southeast Division (SED), established in Raleigh, North Carolina, in 1982, has since expanded into Suffolk, Virginia and Santa Barbara, California.

http://www.ara.com

ARCO Design/Build, Inc.

The ARCO family of companies currently consists of nine construction companies with offices in Atlanta, St. Louis, Tampa, Chicago, Cincinnati, Dallas, Philadelphia, Indianapolis and Kansas City to serve the United States market. ARCO Design/Build, Inc. was founded in Atlanta in 1995 and is a national design/build contractor with a focus on the industrial market. Our history of professional performance in industrial, warehousing, distributing, and office facilities has created a positive reputation including quality work and personal service. We are dedicated to providing uncompromised service to our clients. We also provide professional growth opportunities and fulfillment for our associates. We listen to our clients, share their values and respond to their needs.

http://www.arcodb.com
Arden Companies

Arden Companies is one of America’s leading manufacturers and marketers of outdoor products that are always On-Time, Complete, and Correct. We are driven by integrity, focused on quality, and known for service. We strive daily to inspire a sense of well-being through connectivity with nature.

http://www.ardencompanies.com

Aruba Networks

Aruba Networks® enables enterprise IT organizations to accommodate a new generation of tech-savvy users known as #GenMobile, who rely on mobile devices for every aspect of work and personal communication. To create a mobility experience they can rely on and trust, Aruba optimizes network-wide performance and triggers security actions that used to require manual IT intervention. The result is a dramatic boost in #GenMobile productivity and an equally dramatic reduction in IT operating costs.

http://www.arubanetworks.com

ASCO Power Technologies

For over 120 years, ASCO Power Technologies has been pioneering every major product innovation in power transfer technology. Today, we are an industry leader in the manufacturing of automatic transfer switches, industrial control products and power control systems, and the world leader in emergency and standby power transfer solutions. We are the Power Authority - committed to providing a full range of quality-driven products backed by 24-hour nationwide service support.

AT&T

AT&T is the largest communications company in the United States and the world. We are the industry leaders in providing wireless service, high speed internet access, local and long distance voice. We are also developing our business to include next-generation television services with our AT&T U-Verse SM TV. Join our incredibly diverse company of more than 250,000 people and help drive the innovation that keeps AT&T at the leading edge of technology and service. Expect big things from the company that created the communications industry!

http://www.att.com
ATI Specialty Materials

Allegheny Technologies Incorporated (NYSE: ATI) is one of the largest and most diversified producers of specialty materials in the world. Our talented people use innovative technologies to offer growing global markets a wide range of specialty materials including stainless steel, nickel-based and cobalt-based alloys and superalloys, titanium and titanium alloys, specialty steel alloys, zirconium and related alloys, and tungsten-based specialty materials. Our goal is to be the low cost, high quality supplier to global markets.

https://www.atimetals.com/businesses/ATISpecialtyMaterials

Avery Dennison

Avery Dennison RBIS, a global leader in apparel and footwear industry solutions, is a $1.5 billion division of Avery Dennison (NYSE: AVY). Avery Dennison RBIS provides intelligent creative and sustainable solutions that elevate brands and accelerate performance throughout the global retail supply chain. We elevate brands through graphic tickets, tags and labels, embellishments and packaging solutions that enhance consumer appeal. International Business Machines Corporation is the world’s largest information technology company. The solutions and services we deliver to our clients span all major industries, including financial services, healthcare, government, automotive, telecommunications and education. It is the breadth of our portfolio -- across hardware, software, services, consulting, research, financing and technology -- that uniquely separates IBM from other companies.

IBM’s Smarter Planet initiative recognizes that the world is becoming increasingly instrumented, interconnected, and intelligent. Sensors are embedded in cars, appliances, cameras, roads, pipelines, and even medicine devices and livestock. Smart systems are transforming energy grids, supply chains, health care, and more.

Imangi Studios, LLC

Imangi Studios was founded by husband and wife team Keith Shepherd and Natalia Luckyanova in 2008 with the goal of creating small fun games for everyone to enjoy. What started as a dream job for the couple has evolved into a successful business, with Keith and Natalia now working with a team of other talented game creators. In 2011, the studio developed the mega-hit Temple Run, which has been downloaded about a zillion times. Based in Raleigh, North Carolina, the self-funded, fully independent studio has also developed a number of other games including Temple Run: Brave, Temple Run: Oz, and Harbor Master.

Industrial Extension Service

IES is the outreach function of NC State University’s College of Engineering. IES provides engineering and technical expertise to make North Carolina business more productive and profitable. To do this IES uses lean manufacturing, quality initiatives such as Lean Six Sigma and ISO, sustainability offerings and programs in health, safety and environmental compliance.

IES serves as the state agency for the North Carolina Awards for Excellence, which is based on the Malcolm Baldrige criteria. In February of 2010, Governor Beverly Perdue created the Governor’s Award for Performance Excellence in Healthcare of which IES will provide assessment, training and recognition to hospitals interested in continuous improvement.

http://www.kimley-horn.com

Kollmorgen

Motion is at our core.

More than five decades ago, we developed the direct drive technology that enables some of today’s most remarkable innovative machines.

We helped engineers build the first self-contained artificial heart. Our end-to-end onsite engineering resulted in China’s first air-jet loom for manufacturing, and we’ve been a pioneer in hybrid motor technology for transportation for two decades.

Our infrastructure, our intellectual knowledge, our passion and experience are testament to our pursuit of motion excellence. And because of our heritage of customization, we see opportunities, not obstacles.

http://kollmorgen.com

Lane Construction

Founded in 1890, The Lane Construction Corporation is one of America’s leading construction companies, specializing in heavy civil construction services and products in the transportation, infrastructure and energy industries. Lane’s 4,600 employees team with customers and partners on diverse projects including highways, bridges, racetracks, mass transit and airport systems, and the development of energy resources. With expertise in the fields of engineering, procurement and construction project management, Lane has the proven capacity to handle multiple, large-scale projects and to quickly mobilize resources to staff any project. Naval Air Systems Command (NAVAIR)

I would like to introduce the Naval Air Systems Command (NAVAIR) to you. NAVAIR is an acquisition command under the Department of the Navy with a mission to develop, acquire, support and test all Navy and Marine military aircrafts. This support includes research, design, development, and systems engineering; acquisition; test and evaluation; training facilities and equipment; repair and modification; and in-service engineering and logistics support. NAVAIR is located across eight sites within the U.S.

http://www.navair.navy.mil

NAVSEA

The Naval Sea Systems Command is comprised of command staff, headquarters directorates, affiliated Program Executive Offices (PEOs) and numerous field activities. Together, we engineer, build, buy and maintain ships, submarines and combat systems that meet the Fleet’s current and future operational requirements.

Naval Sea Systems Command (NAVSEA) is the largest of the Navy’s five system commands. With a fiscal year budget of nearly $30 billion, NAVSEA accounts for one quarter of the Navy’s entire budget.

With a force of 60,000 civilian, military and contract support personnel, NAVSEA engineers, builds, buys and maintains the Navy’s ships and submarines and their combat systems. NAVSEA organization has 33 activities in 16 states.

NAVSEA Norfolk Naval Shipyard

Norfolk Naval Shipyard is the oldest and largest shipyard dedicated to the repair, overhaul and modernization of the US Atlantic Fleet. The shipyard covers over 5 miles of waterfront production area, 8 drydocks and 1 million square feet of industrial floor space. Capabilities include all types of repairs on Naval vessels ranging from the largest nuclear powered aircraft carriers afloat to the most modern nuclear submarines. The shipyard is located in Portsmouth, Virginia in the center of the metropolitan Hampton Roads area, 10 minutes from the world’s largest Naval Base and 20 minutes from the resort oceanfront in Virginia Beach.

http://www.navsea.navy.mil/shipyards/norfolk/

NC Department of Transportation

The North Carolina Department of Transportation’s (NCDOT) mission is to provide and support a safe and integrated transportation system that enhances the state. NCDOT fulfills this mission through two major thrusts. First, NCDOT directs, plans, constructs, maintains and operates the second largest state-maintained transportation system in the nation to include aviation, ferry, public transportation, rail and highway systems. Second, NCDOT licenses and regulates the citizens and motor vehicles that utilize these transportation systems.

Tower Engineering Professionals, Inc. (TEP) and TEP Design Build (TEPDB) are telecommunications tower specialists. With respect to towers, TEP/TEPDB is a full-service, multi-discipline, turn-key engineering and construction organization. Since our 1997 inception, we have inspected, mapped, analyzed, engineered, designed, modified, upgraded and constructed more than 50,000 cell towers, broadcast towers, water towers, elevated signs, roofs and telecommunications sites throughout North America. Our annual production averages 10,000 jobs. TEP has over 300 employees, more than 100 of which are Certified Climbers. They are located at offices in Arizona, Colorado, Florida, North Carolina, Texas, and Canada.

TransEnterix

We are a medical device company that is pioneering the use of flexible instruments & robotics to improve the outcomes of minimally invasive surgery. Specifically, we are addressing the challenges presented to patients, surgeons, hospitals & payers in laparoscopy & robotic surgery today. The company is developing a robotic assisted surgical system called the SurgiBot™. The system utilizes flexible instruments through articulating channels controlled directly by the surgeon, with robotic assistance, at the patient’s bedside. The flexible nature of the system allows for multiple instruments to be introduced & deployed through a single-site.
