ENGINEERING CAREER FAIR
SPONSORED BY the College of Engineering

McKIMMON CENTER
WEDNESDAY, FEBRUARY 5
9:30 AM – 4 PM

Spring 2014
students.engr.ncsu.edu/careerfair
WELCOME TO THE SPRING 2014 Engineering Career Fair at North Carolina State University. The College of Engineering is honored that so many outstanding employers are recruiting at this event. The breadth and depth of our programs and the more than 9,000 top students enrolled in engineering and computer science means NC State offers an excellent venue for employers in a variety of fields to connect with outstanding job candidates.

Our Engineering Career Fair began in 1998 and has become one of the largest career fairs of its kind in the nation. And since it is an open event, we have students from other colleges and universities traveling from across the country to attend. We are proud to host an event that plays such a pivotal role boosting the state and national economy.

Your support for our programs was reflected in 2010 when the College of Engineering was ranked 15th among the nation’s engineering schools by recruiters in a study published in the Wall Street Journal. This ranking reflects the high quality of graduates from our engineering and computer science programs and underscores why our career fair keeps attracting so many top employers.

The students and staff who run the career fair have worked hard to make sure this event exceeds your expectations. I hope you enjoy your experience at NC State University.

Louis A. Martin-Vega, Ph.D., P.E.
Dean, College of Engineering
North Carolina State University
2014 AT A GLANCE
The College of Engineering

STUDENTS
- More than 9,000 students
- 18 bachelor’s, 21 master’s, 13 doctoral degree programs
- 72 percent of incoming freshmen in the top 10 percent of their high school graduating class

FACULTY AND STAFF
- 13 members of the National Academy of Engineering
- 2 National Medals of Technology and Innovation
- 2 Directors of NSF Engineering Research Centers
- Lead Scientist for Department of Energy CASL
- 1 Emmy Award for plasma display technology
- 1 US Army Commander’s Award for life-saving military technology
- 1 Inventors Hall of Fame member
- 1 Electronic Design Hall of Fame member
- 3 Presidential Early Career Awards for Scientists and Engineers
- 4 Presidential Awards for Excellence in Science, Mathematics and Engineering Mentoring
- 55 NSF Career Awards since 2000
- 1 Institute of Electrical and Electronics Engineers Medal of Honor winner

ACADEMIC DEPARTMENTS
- Biomedical Engineering
- Chemical and Biomolecular Engineering
- Civil, Construction, and Environmental Engineering
- Computer Science
- Electrical and Computer Engineering
- Industrial and Systems Engineering
- Materials Science and Engineering
- Mechanical and Aerospace Engineering
- Nuclear Engineering

ENGINEERING PROGRAMS IN OTHER COLLEGES
- Biological and Agricultural Engineering
- Forest Biomaterials
- Textile Engineering

RESEARCH
- $160 million in research expenditures in 2012-13
- More than 2,800 graduate students
- Lead institution for two NSF Engineering Research Centers
- More than 20 centers, institutes and labs

RANKINGS
- 15th in recruiter rankings featured in the Wall Street Journal
- 17th among public engineering schools whose highest degree is a doctorate in US News & World Report undergraduate rankings
- 16th among public engineering schools in US News & World Report graduate rankings
- 9th among online graduate engineering programs by US News & World Report
- 1st among online graduate engineering programs for veterans and active duty military personnel by US News & World Report
- 27th worldwide rank in the Academic Ranking of World Universities–Engineering Rankings
- 2nd among non-HBCUs in BS degrees awarded to African Americans
- 7th in number of tenured and tenure-track faculty
- 8th in BS degrees awarded
- 9th among all engineering schools in graduate enrollment
- 10th in undergraduate enrollment
- 14th in research expenditures

ALUMNI
- 53,143 total living alumni
- 54 percent live in North Carolina
- Top 5 alumni metro areas outside NC: Washington, DC; Atlanta, Ga.; Bay Area, Calif.; Greenville/Spartanburg, SC; Norfolk, Va.

CENTENNIAL CAMPUS
- More than two-thirds of the College has moved to the state-of-the-art campus
- Engineering Buildings I, II and III are completed and occupied
- Engineering Buildings IV and V are in the planning stages

ACI Worldwide

“Inspired, driven, passionate innovators. Defining the future of global payments…together” Twenty-four hours a day, 365 days a year, consumers are initiating electronic payment transactions – getting cash at ATMs; using debit, credit, contactless or pre-paid cards in stores and online, at home and overseas; banking by phone, mobile and over the internet. At the same time corporations are managing money electronically and initiating online, high-value and bulk file payments that cross borders and scan the globe. This is the world of electronic payments and it is powered by ACI software. More than 90 billion times each year, ACI’s solutions process consumer payments. On an average day, ACI software manages more than $12 trillion in wholesale payments.

AirWatch

AirWatch is the global leader and innovator in enterprise-grade Mobile Security, Mobile Device Management, Mobile Application Management, Mobile Email Management, and Mobile Content Management solutions designed to simplify mobility.

AirWatch empowers organizations across a wide variety of industries to deploy, secure, track and manage all of their mobile assets with advanced analytics and reporting. With AirWatch, corporate IT departments can streamline and automate the management and support of mobile devices; reduce the cost and effort of device deployments; and increase IT efficiencies and response times.

Allstate Insurance

We are insurance. We are financial services. We are also so much more. We are lawyers, writers, web developers, accountants, building engineers, application developers, project managers and human resource specialists. We are creative, driven, passionate, fearless and curious. Our unique culture of inclusion helps us maximize innovation and creativity. We believe that welcoming differing ideas, cultures and backgrounds gives us a competitive advantage in a diverse, global marketplace. At Allstate, it’s our differences that drive our success, as individuals and as a company. We celebrate creative problem-solving as we work together to make a difference in our communities.

Analog Devices

Analog Devices, Inc. (NYSE: ADI) defines innovation and excellence in signal processing. ADI’s analog, mixed-signal, and digital signal processing (DSP) integrated circuits (IC) play a fundamental role in converting, conditioning, and processing real-world phenomena such as light, sound, temperature, motion, and pressure into electrical signals to be used in a wide array of electronic equipment. But that doesn’t begin to capture the essence of what Analog Devices does for our customers, and ultimately for the end user.

Atlantic Aero, Inc.

Atlantic Aero Manufacturing (AAM) was conceived as a support division of Atlantic Aero FBO, a full service aircraft repair station at the Piedmont Triad International Airport. Initially the shop was located in a small hangar and made intricate pieces to support our highly successful research and development projects. Now, with over 20 years of continued customer satisfaction, AAM has grown into a 30,000 square foot climate controlled facility. AAM machines parts with close tolerances on our CNC milling and turning centers and excels in detailed CNC sheet metal fabrication, prototype, tooling, composites and assembly. We specialize in small to medium run lots from prototype to production.

Integrated Industrial Information (I-Cubed)

Established in 1984, Integrated Industrial Information (I-Cubed) is a privately held technology company with an engineering heritage specializing in integration software at the enterprise level. I-Cubed began as a NCSU graduate student’s senior project with the development of CAD-Pack, software that saved valuable mainframe time for production of work. Throughout the early ’90s and into 2000, I-Cubed began developing technology that enabled specific Computer Aided Design (CAD) tools to work with unassociated Product Data Management systems. During that time we also developed Digital Rights Management software that caught the attention of Adobe.
